

Acknowledgements

The Waikato King Country Boys and Girls Agricultural Group offers its very sincere thanks to all those people who have generously assisted in the development of this information resource. There are too many people to name but they are as diverse as members of the Waikato King Country Boys and Girls Agricultural Group, the public and teachers who have willingly offered information and assistance. Without their generosity and time this resource would never have eventuated. These people have checked that the concepts are correct and that this resource makes a genuine effort to enthuse all the children who may wish to become involved with any one of the four projects.

Many thanks must also go to the editor who has undertaken to edit this resource at short notice and rigorously check the presentation.

Lastly we would like to thank the following sponsors who have donated money towards the printing expenses. The sponsors are JD and RD Wallace Ltd for sponsoring the costs towards printing, New Zealand Lottery Grants Board and Livestock Enterprises for donating funds towards the cost of paper and ring binders. These sponsorships are invaluable to the Waikato King Country Boys and Girls Agricultural Group as without them the costs would be beyond our capabilities.
